Summary and Certificate derived from our „Life Energy Tests“

1. Three operational fields of the “Himalayan Crystal Cross Pendant” (Verum) were tested: the effects on the net of the meridians (‘Chi’ energy and harmony), on the soma (organ functions and colloidal states), and on the vegetative nervous system (Heart Rate Variability to describe stress and the sympathetic and vagal nervous systems).
2. In single blinded and randomized tests two situations were investigated: 1) effects of a Placebo pendant, 2) effects of the Verum pendant, each one worn on the breastbone.
3. The “Himalayan Crystal Cross Pendant” is able to improve energy and harmony and to balance the autonomous systems of the organism.
4. It can be assumed that the increases of energy and harmony and the improvement of the Vegetative Nervous System will reduce the negative environmental and civilization effects produced at present by our civilization. A harmonization of the systems of the organism takes place.
